```
{
  "server": "localhost",
  "tasks": [
    {
      "path": "/path/to/file/",
      "age": "10d"
    },
    {
      "path": "/path/to/file/",
      "age": "1d"
    },
    {
      "path": "/path/to/file/",
      "age": "10d"
    }
  ]
}
```

"Server"

This will be the server name in Ansible inventory file

"path"

This will be the directory to check

Warning! Make sure the path ends in "/" if not it'll check the file's creation date as well and delete the whole folder!

"age"

This will be retention time for the file.

"10" = 10 seconds

"10h" = 10 hours

"10d" = 10 days

"10y" = 10 years
